

we are brothers

we have a very special bond  
you and I

I have stepped up beside you  
to serve my country  
put my very life on the line  
committing my blood  
and my sacred honor  
to preserve for all our children  
"Our God Given Rights"  
of and for freedom and liberty

regardless of our assigned job

great or small

we have done our best

learning our most important job  
is to serve our brothers  
who just like us  
are stuck in the always present  
cluster - mess  
all too often with incoming hostile fire

we are here today

because of our commitment  
to serve our brothers  
who always have our back  
against all odds  
where too often  
many have died on the battle field

and yes

still today my brother  
just know  
I would step up beside you  
and give my life  
to preserve our liberty and freedom  
which we still value  
more than life itself
